

MEHMET SESEN

Lead Web Developer

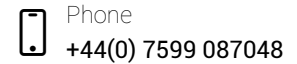

Have delivered several large scale web projects for a multi-million-pound company in the UK. This included project planning from design to development. Have implemented continues development processes by utilising portable work environments built on top of industry-standard technology and controlled by a single consistent workflow to help maximise the productivity and flexibility of the team.

Self-motivated and never gives up on the problem. Enjoys overcoming challenges and whether it's jumping from AngularJS to Angular, or utilising pure PHP with or without an MVC framework, or working with nodejs, I have a keen eye for the latest software development tools and techniques and able to pick up new programming languages and adopt to current development tools.

Skills

+ FRONT-END

+ BACK-END

+ GENERAL EXPERIENCE

- Web Development**
Can work both on the front-end and back-end. Can anticipate possible problems and plan accordingly. Able to design & develop projects with possible future growth. Good knowledge of general programming (classes, functions, variables, arrays, loops, data types etc.), including OOP concepts. Comfortable of designing, planning and implementation of Relational Databases.
- Server Side**
Proficient with PHP and Zend 3, and have years of experience working with MVC frameworks for developing dynamic web applications. Experience developing user authentication, as well as database schema creation and CRUD functionality.
- Tools**
Using Vagrant for rapid and portable development environments. Exposure to and developing/publishing at least one application using various development Environments/Tools such as Adobe Flash (ActionScript 3), Corona SDK (Lua), Android Studio (Java), Apache Cordova (Web Technologies) and Sublime Text/Visual Studio Code (Web Development).
- Teamwork**
Have worked in a team as a lead developer managing designers and junior developers, as well as freelancing, meeting with various clients to discuss, plan, advise, and train in all areas related to their online presence needs.
